

Stoneham Lane Surgery

National Data Opt-Out Policy

In addition to using your information to provide you with direct medical care the practice and NHS England sometimes use data to support research into medical condition, develop new medication and for planning future services.

If you do not want the practice to use your information for this purpose please let reception know and a code will be added to your record which will enable us to exclude you from any audits required for research purposes.

If you do not want NHS England or NHS Digital to use your data in this way please visit <https://www.nhs.uk/your-nhs-data-matters/> where you will be able to register to have your information excluded.

From 30th September 2020 all patients wishing to opt out of any research or future planning will need to register on the website as the practice will not be able to provide this support."
