

Stoneham Lane Surgery

Dr Sue Halfpenny

Dear Patients,

May I take this opportunity to share with you that I am changing my role at Stoneham Lane Surgery as of 30th June 2020; please be assured this has been planned since the end of last year and has nothing to do with the current Covid Crisis.

I have been a Doctor for 27 years and a GP for 17 years. It has been my great pleasure to serve at this practice alongside wonderful colleagues since February 2011.

I have thoroughly enjoyed caring for you and your families over this time.

It has been a huge privilege to be your GP.

In the last few years I have been drawn to teaching medical students, they are after all the next generation of doctors who will keep the NHS going! And I have a passion to be involved in training them

So what happens next?

I am on sabbatical from 1st July 2020 until my new teaching role commences in September.

The partnership has appointed a very experienced new GP Partner, and we are delighted to introduce Dr Jane Duggan, she will be taking over my list of patients .

At Stoneham Lane we have a fantastic team who work together to provide excellent primary care and I have no doubt that your needs will be fully met in the future.

Dr Sue Halfpenny
