

Appendix A - Who we share your information with and why

Activity	Rationale
<p>Clinical Commissioning Group (CCG)</p>	<p>Purpose: Anonymous information is shared to plan and design care services within the locality.</p> <p>Legal Basis: non identifiable data only.</p> <p>Data Processor: Southampton CCG</p>
<p>CSU – Individual Funding Requests</p>	<p>Purpose: We may need to share your information with the IFR team for the funding of treatment that is not normally covered in the standard contract.</p> <p>Legal Basis: The clinical professional who first identifies that you may need the treatment will explain to you the information that is needed to be collected and processed in order to assess your needs and commission your care; they will gain your explicit consent to share this.</p> <p>Data processor: We ask NHS South, Central and West Commissioning Support Unit (CSU) to do this on our behalf.</p>
<p>Summary Care Records (SCR)</p>	<p>Purpose: During the Covid19 pandemic practices have been told to share details of patient’s personal confidential and special category data onto the summary care record. The NHS in England uses a national electronic record called the Summary Care Record (SCR) to support patient care. It contains key information from your GP record. Your SCR provides authorised healthcare staff with faster, secure access to essential information about you in an emergency or when you need unplanned care, where such information would otherwise be unavailable.</p> <p>Legal Basis: Direct Care The relevant COPI notice states that its purpose: “...is to require organisations to process confidential patient information for the purposes set out in Regulation 3(1) of COPI to support the Secretary of State’s response to Covid-19 (Covid-19 Purpose). “Processing” for these purposes is defined in Regulation 3(2) and includes dissemination of confidential patient information to persons and organisations permitted to process confidential patient information under Regulation 3(3) of COPI.” Full details of the Summary Care Record supplementary privacy notice can be found here</p> <p>Patients have the right to opt out of having their information shared with the SCR by completion of the form which can be downloaded here and returned to the practice. Please note that by opting out of having your information shared with the Summary Care Record could result in a delay care that may be required in an emergency.</p> <p>Processor: NHS England and NHS Digital via GP connect</p>
<p>CHIE</p>	

	<p>Purpose: To provide Healthcare Professionals with complete, accurate and up to date information. This information comes from a variety of sources including GP practices, community providers, acute hospitals and social care providers. CHIE is used by GP out of hours, acute hospital doctors, ambulance service, GPs and others on caring for patients – you may opt out of having your information shared on this system.</p> <p>Legal Basis: This service is for your direct care and in an emergency.</p> <p>Data Processor: NHS SCW.</p>
<p>Community Staff: Complex Care Team Home Visiting Service District Nurses Community Matrons Leg Ulcer Service Heart Failure Service Multi-Disciplinary Team Palliative Care Nurses Midwives Health Visitor Diabetes Team</p>	<p>Purpose: We will enable the Community Nursing Team to have access to your medical record to allow you to receive care from the community nurses for the services listed.</p> <p>Legal Basis: These services are for your direct care and is fully consented, permission to share your medical record will be gained prior to an appointment being made in the service</p> <p>Data Processor: Your registered surgery will continue to be responsible for your full medical record</p>
<p>Care Quality Commission</p>	<p>CQC has powers under the Health and Social Care Act 2008 to access and use information where they consider it is necessary to carry out their functions as a regulator.</p> <p>CQC relies on its legal powers to access information rather than consent, therefore may use its powers to access records even in cases where objections have been raised.</p> <p>CQC Privacy Notice is available on the CQC website</p>
<p>CHIA</p>	<p>Purpose: Is a database used for analysing trends in population health in order to identify better ways of treating patients. CHIA is a physically separate database, which receives some data from CHIE. Prior to this transfer from CHIE to CHIA patient identifiers are removed from the data.</p> <p>This includes names, initials, addresses, dates of birth and postcodes. NHS numbers are encrypted in the extract and cannot be read. This process is called 'pseudonymisation'. This subset of data does not include information typed in by hand, so there is no possibility of it containing references to family members or other people. It contains only coded entries for things like allergies and prescribed drugs.</p> <p>It is not possible to identify any patient by looking at the 'pseudonymised' data on the CHIA database. People who have access to CHIA do not have access to CHIE. Data in CHIA is used to plan how health and care services will be delivered in future, based on what types of diseases are being recorded and how many are being referred to hospital etc. Data is also used to help research into new treatments for diseases.</p> <p>Legal Basis: You can opt out of this service</p> <p>Data Processor: NHS SCW</p>
<p>General Practice</p>	

<p>Extraction Service (GPES) Covid-19 Planning and Research data</p> <p>UNTIL 31st MARCH 2022</p>	<p>Purpose: Personal confidential and Special Category data will be extracted at source from GP systems for the use of planning and research for the Covid-19 pandemic emergency period. Requests for data will be required from NHS Digital via their secure NHSX SPOC Covid-19 request process.</p> <p>Legal Basis: NHS Digital has been directed by the Secretary of State under section 254 of the 2012 Act under the COVID-19 Direction to establish and operate a system for the collection and analysis of the information specified for this service: GPES Data for Pandemic Planning and Research (COVID-19).
